

Panashe Arthur Mhonde

Data Scientist and Analyst

📍 Macheke 📞 0788147289 📧 PhaseOfficial 📱 Panashe Arthur Mhonde

Profile

Recent Data Science graduate with strong skills in **data analysis, data visualization, and statistical modelling**. Experienced in collecting, cleaning, and analysing large datasets to generate actionable insights. Proficient in **Python, SQL, Excel, and Power BI**, with hands-on experience developing dashboards, reports, and predictive models.

I am highly analytical, detail-oriented, and eager to contribute to data-driven decision-making while gaining practical experience in a dynamic IT environment. I am passionate about solving business problems using data and continuously improving processes through automation and analytics.

Personal Information

- **Address:** 566 Jacaranda Road, Springfield Macheke
- **Nationality:** Zimbabwean

Languages

- **English:** ★★★★★
- **Sign Language:** ★★★☆☆
- **Shona:** ★★★★★
- **Chinese:** ★★★☆☆

Skills

- | | |
|--|--------------------------------|
| • ★★★★★ Data Analysis (Python, R, SQL) | • ★★★★★☆ Data Engineering |
| • ★★★★★☆ STATA, Excel & SPSS | • ★★★★★ Web Development |
| • ★★★★★☆ Power BI | • ★★★★★ Full-stack Development |
| • ★★★★★☆ Selenium & BS4 | • ★★★★★☆ Training LLMs |
| • ★★★★★ Prompt Engineering | • ★★★★★ Teamwork |
| • ★★★★★☆ Machine Learning | • ★★★★★ Communication Skills |
| • ★★★★★☆ Recommender Systems | • ★★★★★ Time-Management |

Work Experience

- **Resident Researcher (Big Data & AI), ZCHPC, Harare** *Jul 2024 – Apr 2025*
 - Conducted research on the integration of Big Data analytics and Artificial Intelligence for national-scale computational projects.
 - Developed predictive models and data pipelines for large-scale datasets using Python, TensorFlow, and distributed computing frameworks.
 - Collaborated with interdisciplinary teams to optimize AI-driven solutions for climate, health, and infrastructure applications.
- **Big Data Analyst Intern, ZCHPC, Harare** *Jul 2023 – Jul 2024*
 - Collected, cleaned, and analyzed high-volume datasets using Python and SQL to support data-driven decision-making.

- Assisted in deploying machine learning models on HPC systems, focusing on performance optimization and scalability.
- Contributed to visualization dashboards and technical documentation for project stakeholders.
- **Personal Projects** *github.com/PhaseOfficial*
 - Developed and deployed AI and web applications, including NLP models, data analysis tools, and full-stack web projects.
 - Explore innovative intersections of AI, data science, and software systems through open-source contributions.

Achievements

- **Dissertation Project Titled Building a Bilingual Dataset and Language Model for Shona NLP Applications in Zimbabwean Banking Sector**
Scored 1(Distinction) Certificate attached to resume *Jun 2025*
- **Zimbabwe Maize Crop Disease Detection Challenge by Zindi**
Position 5/50 Certificate attached to resume *Aug 2025*

Education

- **Bachelor of Science Honours Degree in Data Science and Systems,**
Upper Second Class (2.1),
Certificate and transcript attached to resume
University of Zimbabwe, Harare *Sep 2021 – Jun 2025*
- **A level,**
3 A-Level passes,
Certificates available upon request
Nhowe High School, Macheke *Feb 2018 – Nov 2019*
- **O level,**
11 O-Level passes including English and Mathematics,
Certificates available upon request
Nhowe High School, Macheke *Jan 2013 – Nov 2017*

Courses

- **Artificial Intelligence and Big Data Analytics, ZCHPC**
Certificate attached to resume *Jul 2024*

Other Skills

- **Driver's License, Class 2**
Certificate available upon request *Sep 2021*
